

CONCRE**SHELL**®

INTEGRAL CONSTRUCTION SYSTEM

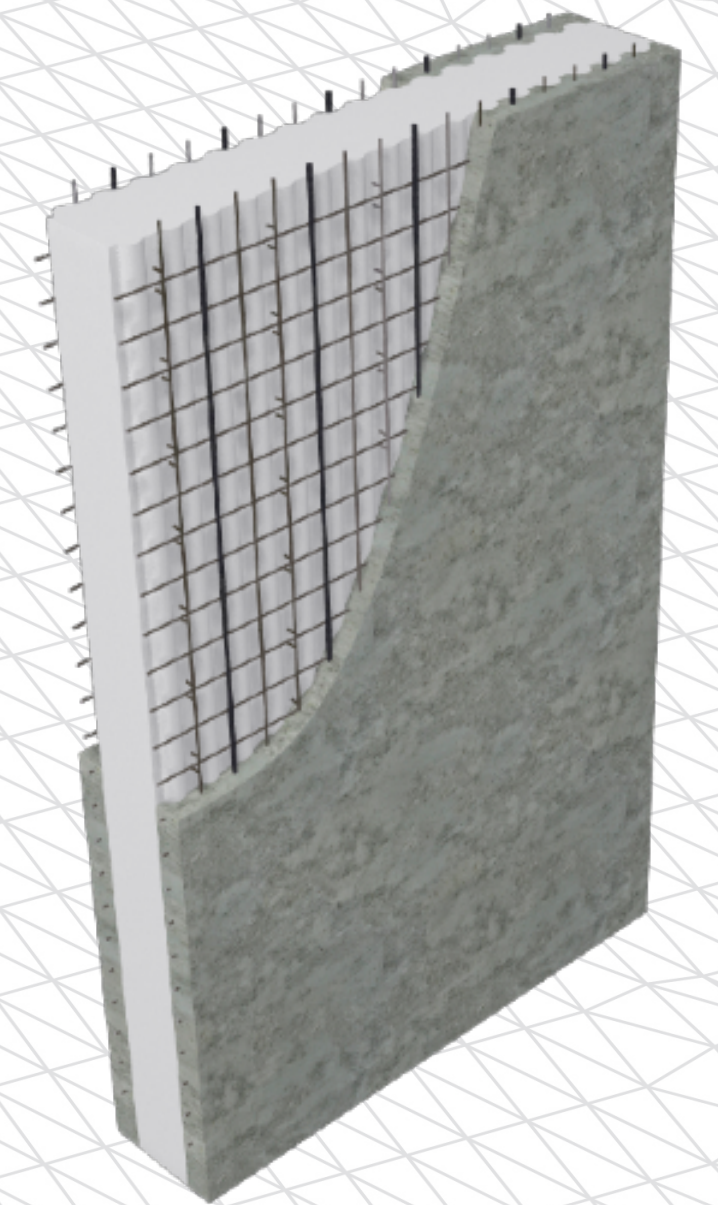

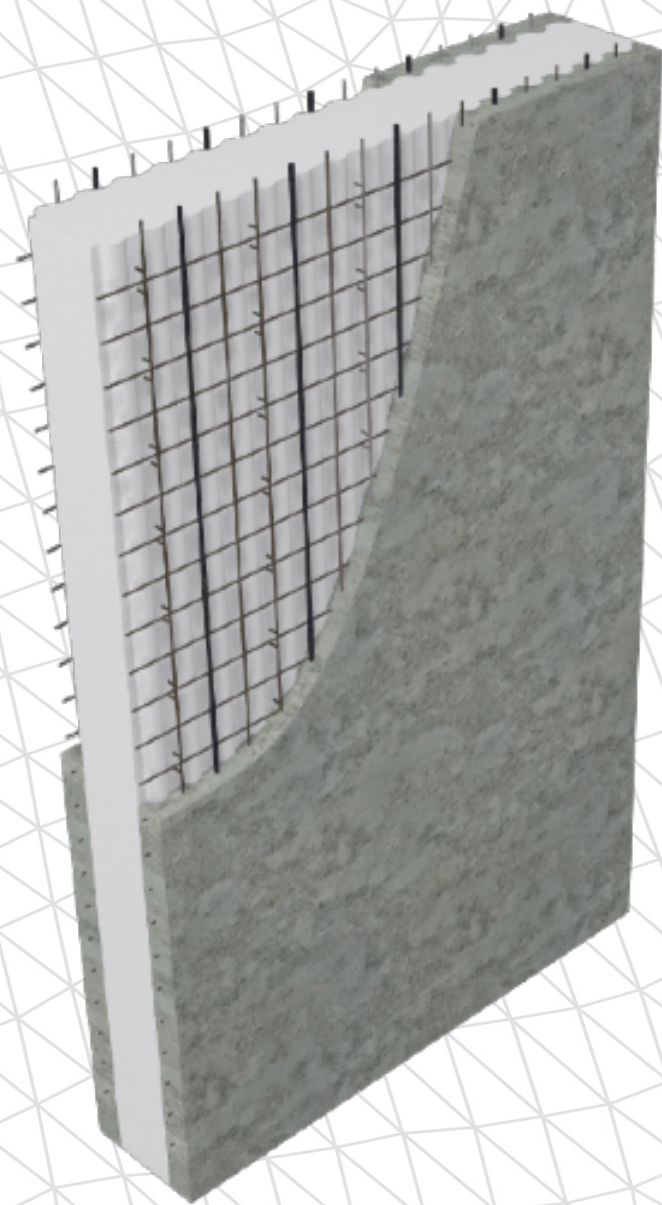

MANUFACTURED IN **USA**

IN COOPERATION WITH

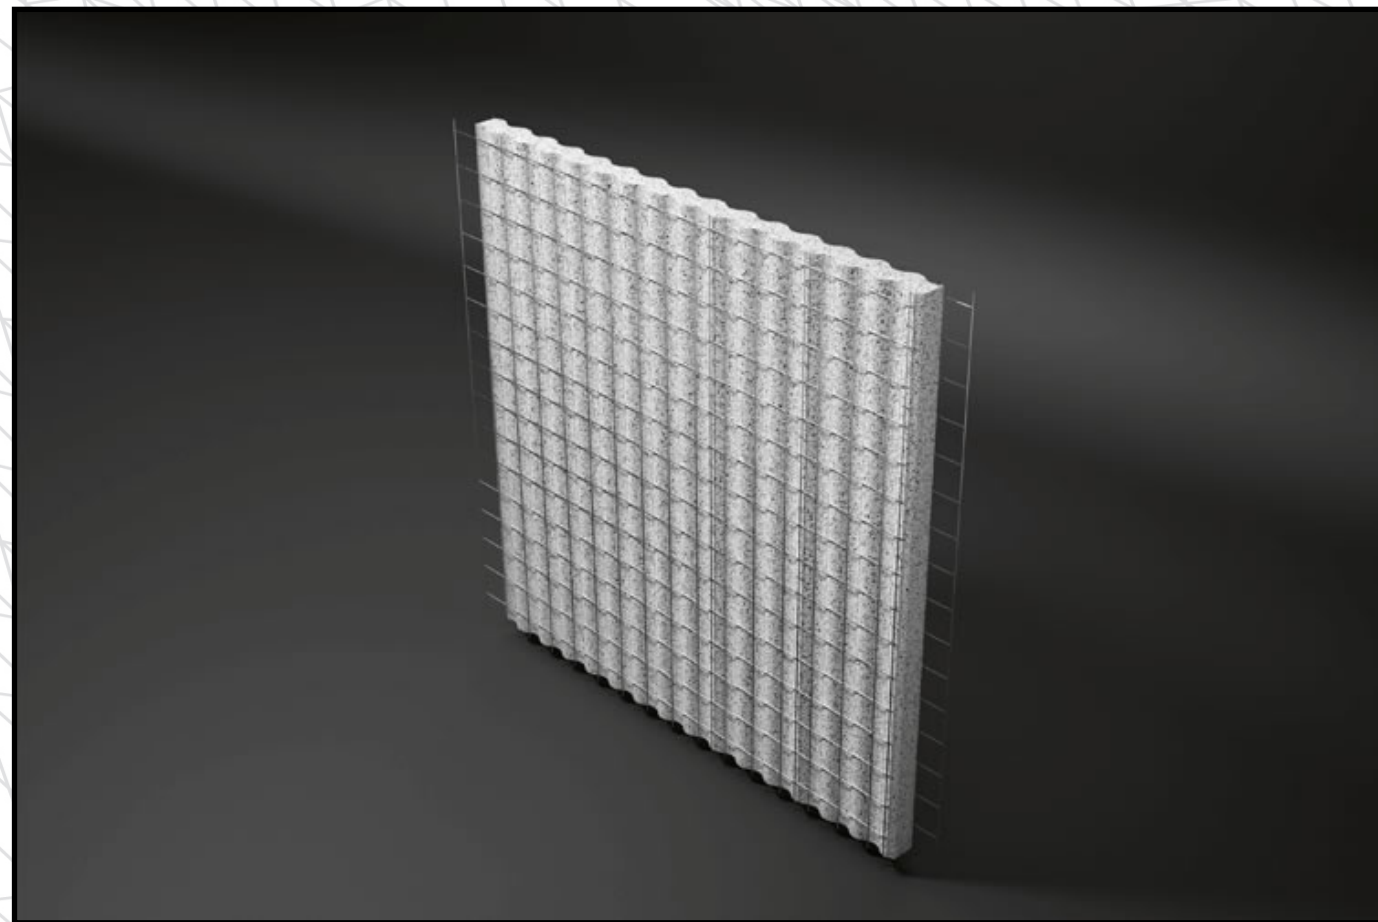

OUR CONSTRUCTION SYSTEM IS CONSTITUTED BY
HIGH RESISTANT 3D PANELS, MADE OUT OF
STEEL, CONCRETE AND POLYSTYRENE

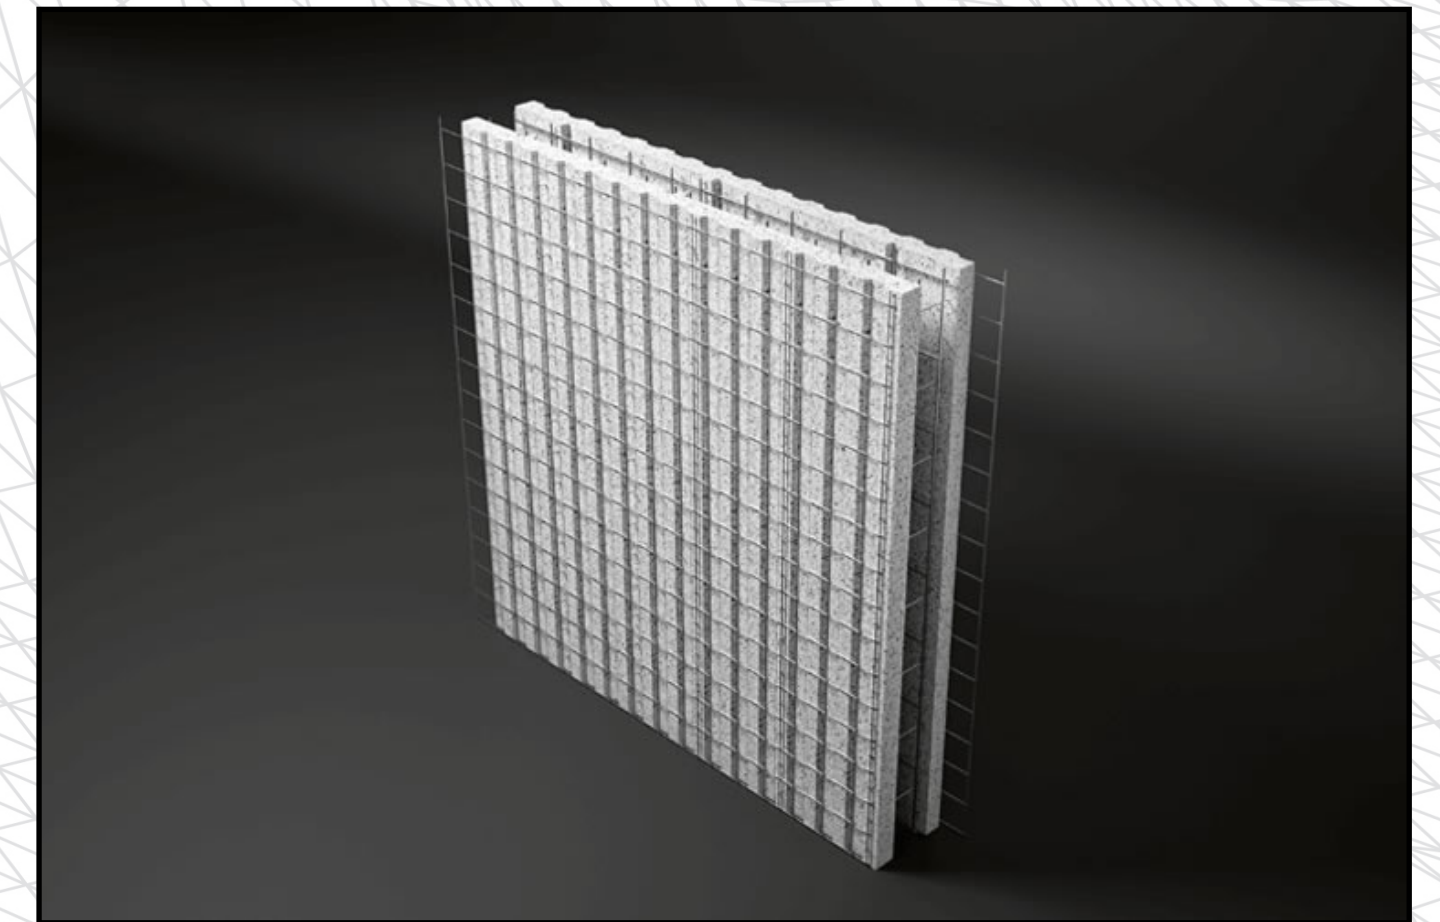

THE SYSTEM

SINGLE PANEL

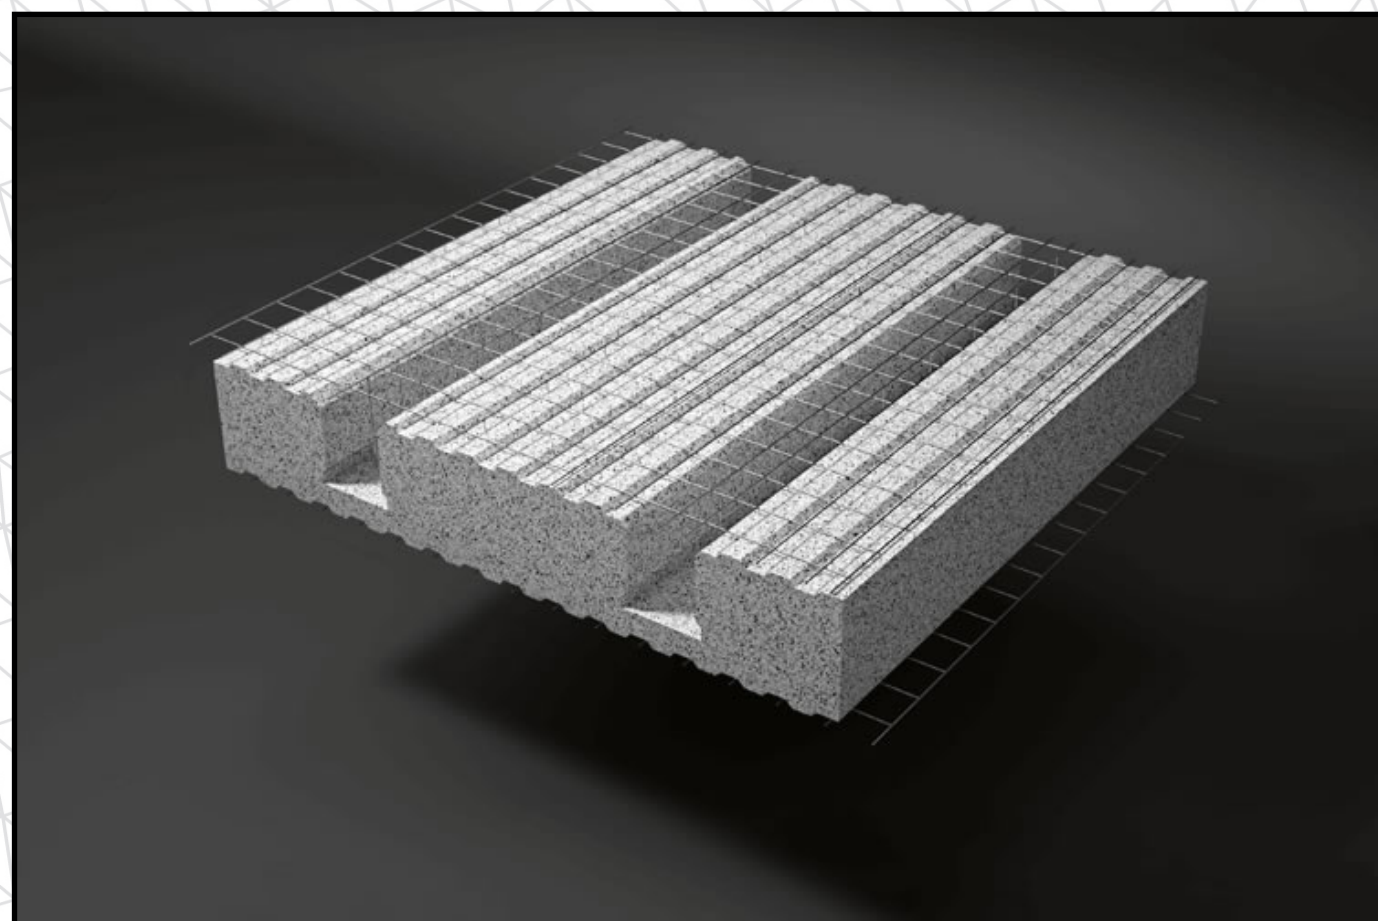

DOUBLE PANEL

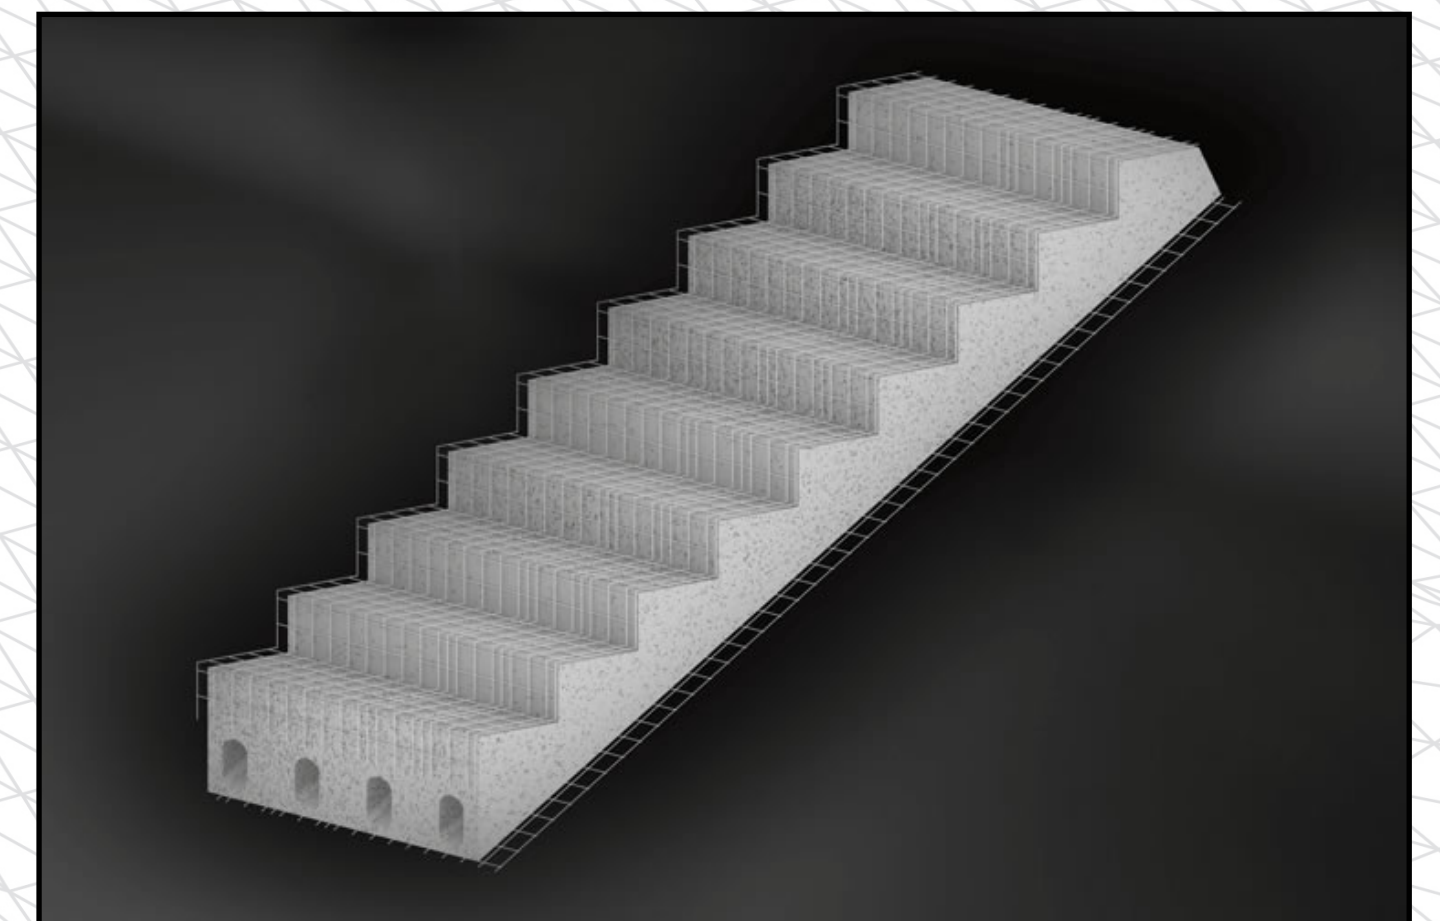

Schnell machines produce a panel that consists of a polystyrene sheet assembled with welded wire mesh.

A single facility can produce all the elements for building according to customer needs and can vary the thickness, length and density of the polystyrene core as well as the diameter of the mesh and number of connectors between the mesh.

ROOF/FLOOR PANEL

STAIRS PANEL

UNLIMITED USES

SINGLE FAMILY

MULTI FAMILY/ MULTI STORY

COMMERCIAL/INDUSTRIAL

This innovative building system is gaining popularity in many countries both for low-cost housing and for high-quality residential buildings thanks to its **insulation, lightness, low cost and quick installation.**

MAIN ADVANTAGES

AFFORDABLE LUXURY COST EFFECTIVE PRODUCT

SPEED / EFFICIENCY

- 3 Time Faster building time than traditional
- Minimized Weather Dependency
- Entry Level Labor – minimum training
- Pre-Fabrication of main elements
- Easier for other trades (MEP)
- No need for special heavy equipment

ENVIRONMENTAL FRIENDLY

- Free of Toxic Gases, Non-Allergenic
- Noise Resistant
- Termite Resistant
- Insulate up to R40
- Noise reduction
- LEED Certifiable
- Sustainable
- Net Zero Ready

STRONGER AND SUPERIOR QUALITY

- Monolithic structure
- Miami Dade N.O.A. approved product
- Hurricane Resistant
- Corrosion Resistant/Mold Resistant
- Earthquake Resistant
- 4 Hr Fire Rating
